4.3.3 Vocational training events (lifelong learning)

Ajman University (AU) focuses on quality education and promotes lifelong learning through various outreach and vocational training programs. In 2023, AU offered the general public numerous opportunities including free learning opportunities to promote skill development and continuous learning. The Center for Continuing Education and Enterprises (CCEE) provides vocational training and executive education in areas like business management, IT, and healthcare. AU collaborates with platforms like Coursera to enhance employability through online courses. Through the Estedad program, AU helps high school students build essential entrepreneurship and enrichment skills. Additionally, the Innovation Centre offers start-up training, creating an ecosystem for entrepreneurs to turn ideas into marketable products, while its sustainability programs focus on UNSDGs and health & safety.

A. Educational Programs by AU to General Public

1. Center for Continuing Education and Enterprises (CCEE)

As of 2023, the Center for Continuing Education and Enterprise (CCEE) at Ajman University stands as a leading regional provider of a wide range of testing, training, and professional development programs. These services cater to both individual learners and corporate groups, serving the UAE and the broader Gulf region.

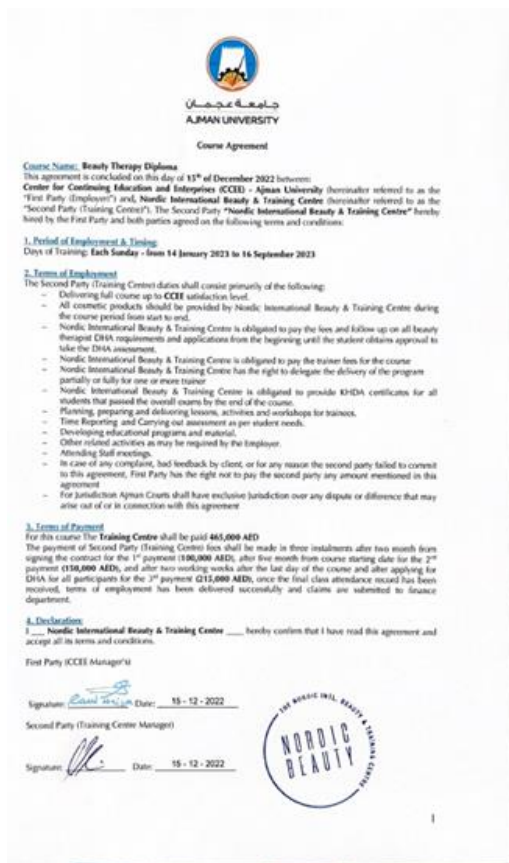

The CCEE underwent an expansion with the introduction of a new Enterprises Unit, which succeeded the previous Continuing Education Center (CEC). This new unit is dedicated to developing and managing business activities that align with the needs of the community and businesses in Ajman and across the UAE. The programs and courses offered by the Enterprises Unit are carefully designed to address the evolving demands of the corporate world, as well as to contribute to the broader goal of community betterment.

This strategic expansion has positioned the CCEE as a key player in delivering high-quality, tailored education and training programs, bridging the gap between professional development and societal needs in the region.

One of the examples, is the offering of Beauty Therapy Diploma through collaboration of Ajman University and Nordic International Beauty & Training Center. This vocational certification provides students with practical skills and knowledge in beauty therapy, equipping them with the professional expertise needed to succeed in the growing beauty industry.

By offering a specialized diploma, this initiative focuses on ensuring access to affordable vocational training and technical education. It also helps bridge the gap between academic learning and industry requirements, preparing students for meaningful careers while fostering lifelong learning. The partnership reflects Ajman University's commitment to providing diverse learning pathways, enhancing opportunities for skill development, and supporting economic empowerment through education that meets the needs of the labor market. Through such initiatives, Ajman University actively contributes to advancing the goals of SDG4, ensuring quality education and accessible lifelong learning for all. Please refer to the samples of the contract, training certificate and diploma below:

Under its Strategic Goals #4 & #6, Ajman University strives to deliver offerings that can meet the community's needs to achieve individuals' 360-degree skill and professional development. All the courses under the CCEE are designed, evaluated, and implemented by professionals and experts in their fields.

The CCEE offers several training programs throughout the year, open to the public, corporate channels, students from UAE or other regions, and sometimes to a specialized group of people from the targeted field. Below are some training programs, courses, or workshops the center runs throughout the year. Depending on the nature of the topic, the courses are either time-based (2 or 3 days), fixed-week, month-long, or yearly courses.

Please refer to the links below:

<https://www.ajman.ac.ae/en/academics/center-for-continuing-education-and-enterprises-ccee>

<https://cec.ajman.ac.ae/en/gallery>

Some of the topics covered under the center are:

- Business and Management
- Project Management
- Finance, Auditing and Accounting
- Information Technology
- Information Security
- Leadership and Soft Skills
- Training of Trainers (TOT)
- Strategic and Operational planning
- Innovation, Creativity and Entrepreneurship
- English as a Foreign Language
- Arabic for Non-Arabs
- Special Education Courses
- Dental Courses
- Make-up and Beauty
- Orthodontic Residency Program
- Mastering Composites Magic Course
- Extreme Endodontics Program
- MedStart Program
- Mastering Endodontic Complex Cases

Please refer to the links below for the programmed courses:

<https://ccee.ajman.ac.ae/en/orthodontic-residency-program>

<https://ccee.ajman.ac.ae/en/mastering-composites-magic-course>

<https://ccee.ajman.ac.ae/en/extreme-endodontics-program>

<https://ccee.ajman.ac.ae/en/medstart-program>

<https://ccee.ajman.ac.ae/en/mastering-endodontic-complex-cases>

For other ad-hoc courses, the content is available at:

<https://ccee.ajman.ac.ae/en/course-content>

2. “Estedad” program by Ministry of Education in UAE

In the year 2023, **Ajman University (AU)** continues its active participation in the UAE Ministry of Education's **National Ambassadors Program, "Estedad"**, which was launched in 2020. This pioneering program is designed to enrich and build the capacity of high school students, equipping them with the essential skills required to succeed in various fields and effectively prepare for university applications.

The "**Estedad**" program, the first of its kind in the UAE, focuses on five key tracks: **scientific research, enrichment, entrepreneurship, diplomacy, and sustainability**. Ajman University supports two of these tracks—**scientific research** and **entrepreneurship**—through dedicated initiatives and programs. These efforts help empower students with the knowledge and tools necessary to excel in higher education and beyond, fostering the next generation of leaders, researchers, and innovators.

By 2023, AU's involvement in the "Estedad" program has contributed to strengthening the skills of young UAE nationals, ensuring they are well-prepared to navigate academic challenges and contribute to the nation's future development.

3. “Entrepreneurship” program

The ‘Entrepreneurship’ program helps nurture students in the business field. It embeds them with the traits and skills of an entrepreneur, empowering them to think outside the box, develop innovative solutions, and play a crucial role in their country's economy. Students gain essential entrepreneurial skills by practicing critical thinking, problem-solving, communication, risk-taking, and collaboration.

4. “Enrichment” program

The ‘Enrichment’ online program is designed to promote students’ knowledge and skills in different aspects and train them on various scientific topics such as artificial intelligence, programming, robotics, and other trending issues in the labor market. The program also helps enhance students’ academic experience, giving them a sense of personal accomplishment and growth by introducing them to research methodologies, creativity, innovation, and various unique skills.

Please refer to the link below:

5. “Coursera” partnership to enhance Employability Skills

❖ Ajman University and Coursera Enter Partnership

Ajman University (AU) has launched an initiative with Coursera, a leading global provider of massive open online courses (MOOCs) and it continued it in the year 2023. The initiative aims to enhance its students' employability skills and offer them a range of real-world, industry-aligned courses and certifications. The partnership between the two organizations will provide AU students access to advanced courses and job-relevant credentials through Career Academy from Coursera, including Professional Certificates from industry leaders.

Please refer to the link below:

<https://www.ajman.ac.ae/en/dba-news/news/2022/ajman-university-and-coursera-enter-partnership-aimed-at-enhancing-employability-of-au-students>

Career Academy from Coursera is a new career training academy that prepares learners—even those with no university degree or prior work experience—for in-demand jobs at unprecedented speed and scale. The Coursera catalog includes 5,200+ courses, 3,300+ guided projects, 650+ specializations, and 115+ certificates. Learners can learn at their own pace entirely online across the web and mobile.

Access to Coursera is only offered to current students, alumni, staff, and faculty. However, AU plans to enroll alumni and the general public in Coursera courses to advance its offerings. This will be subject to availability and approvals.

❖ 2023 AU Success Story with Coursera

AU's Vice Chancellor of Academic Affairs, in a fireside chat event organized by Coursera on May 18, 2023, in Dubai to share AU's successful experience with implementing Coursera. The event witnessed the participation of many university officials and representatives and officials from the Council for Academic Accreditation (CAA), the Ministry of Education in the UAE, and other vital managers from various well-known companies.

Prof. Khaled highlighted the impressive figures for student enrolment, lessons taken, certificates completed, the various skill competency domains covered, and the number of students who benefited from the offered courses.

Please refer to the link below:

<https://www.ajman.ac.ae/en/news/2023/vice-chancellor-for-academic-affairs-shares-au-success-story-with-coursera-during-a-fireside-chat-event-in-dubai>

6. Leadership Programs by the Office of Student Life

Ajman University (AU) continued to offer leadership programs in the year 2023, including free sessions. The Office of Student Life organizes a Leadership program that enables students to be leaders by providing them with leadership skills and the art of effective communication. It also allows them to discover their abilities to achieve their goals, address all challenges, and pave the way for leadership.

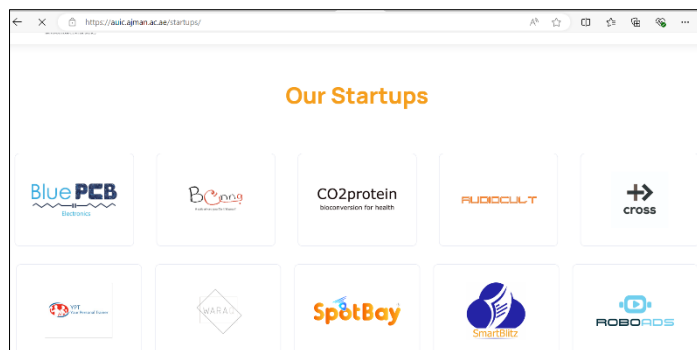

Please refer to the link below:

<https://www.ajman.ac.ae/en/student-life/office-of-student-life/leadership-programs-1>

7. Start-up Training by Innovation Centre

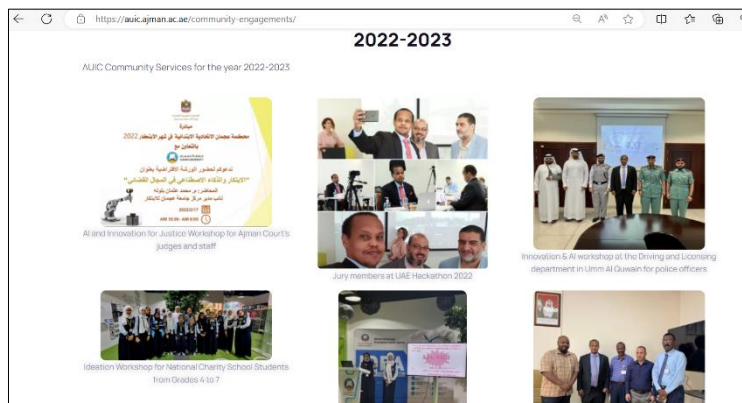

Ajman University Innovation Centre (AUIC) continues the initiative in the year 2023, since its inception in 2016. AUIC continues to be a driving force in fostering innovation and entrepreneurship within the UAE. Drawing inspiration from the successful Korean Innovation Centre model, AUIC has created a dynamic ecosystem that brings together start-ups, funders, investors, technology leaders, as well as innovation mentors, academics, and governmental agencies.

Please refer to the link below:

<https://auic.ajman.ac.ae/startups/>

In the academic year 2023, AUIC provides an innovation platform to create opportunities for productive interactions between students, alumni, faculty, industry, government, and society. By sharing and implementing innovative ideas and solutions to resolve existing problems and address future challenges, AUIC achieves significant economic and social benefits for the engaged stakeholders.

Through the Idea Competition, AUIC helps the community raise the

necessary funds for their idea to be launched as a Product/Service/Product and service. AUC trains and guides the project team in developing their idea into a business plan, supporting funding initiatives, registering the company, and supporting them with Government and private sector Businesses.

The event was first hosted in 2018, continue into the year 2023 and has since become a programmed event for the office. It is scheduled annually, and participation is free to the entire UAE community.

Please refer to the link below:

<https://www.ajman.ac.ae/en/news/2022/hamdan-innovation-incubator-recognizes-ajman-university-as-a-certified-business-incubator>

AUC has an annual calendar schedule finalized at the onset of every New Year for the respective Workshops. The workshops are in line with the growth path of the Startups. The focus is on the actual requirements for the Startups from the seed stage to their Entity formation.

These workshops and events are open for registration to all AU Students, Alumni, and the external community through the University's social media page and website. The workshops are also available online for audiences from around the globe who cannot attend in person. Also, AUC Workshops are available in video formats, as archives on the AUC website.

Please refer to the links below:

<https://auic.ajman.ac.ae/workshops/>

<https://auic.ajman.ac.ae/community-engagements/>

B. 2023 Specialized Courses Offered by the Colleges

As part of AU's commitment to "Quality Education for All," several courses on the latest technology, IT tools, management practices, etc., are organized occasionally. Such courses are free for community enrolment and support students who want to advance their 21st-century skills.

1. Certified Associate in Project Management – CAPM training

In May 2023, the College of Architecture, Art, and Design (CAAD) at Ajman University successfully organized a six-day "Certified Associate in Project Management" (CAPM) training in collaboration with Quadra Plus Professional and Management Development Training.

Please refer to the links below:

<https://www.ajman.ac.ae/en/cad/news/2023/certified-associate-in-project-management-capm-training>

2. 2023 LEED GA (Green Associate) Certification Training Course

In the year 2023, the LEED Green Associate credential signifies a professional's comprehensive understanding of sustainable building concepts, making it a valuable qualification for individuals involved in the architecture, engineering, and design. This course covered a range of green building principles applicable to commercial and residential spaces.

It served as a valuable resource for professionals working on LEED projects, including architects, engineers, product manufacturers, consultants, and non-technical individuals.

Please refer to the links below:

<https://www.ajman.ac.ae/en/cad/news/2023/leed-ga-green-associate-certification-training-course>

3. 2023 Futurly Training

The training introduces Rhino and Grasshopper, covering the basics of NURBS modeling operations, mesh, vector, list, and data tree. The narrative will be structured as a parallel analogy between manual and parametric modeling, enabling learners to understand the in-depth differences.

Please refer to the links below:

<https://www.ajman.ac.ae/en/cad/news/2023/futurly-training-by-mr-omar-kaddourah>

4. Python Learning Course

The College of Engineering and Information Technology organizes free training on Python tools and their usage for school students or external community enrollments. The six-week course includes intense practice sessions, understanding core concepts, implementation in real-world situations, and teaching the ethics of the Cloud world.

Please refer to the links below:

<https://www.ajman.ac.ae/en/engineering/student-development-sessions-events/python-workshop>

5. Latex Workshop

College of Engineering and Information Technology organizes training on Latex technology, accessible for school students or external community enrollments. Latex is a cloud-based collaborative editor for writing, editing, and publishing scientific documents. During the course, participants were given thorough knowledge of core concepts, practice exercises, cheat sheets, and workshop recordings for future reference. All the resources are made available for free.

Please refer to the link below:

<https://www.ajman.ac.ae/en/engineering/student-development-sessions-events/latex-workshop>

6. 3-D Gaming Unity Workshop

Artificial Intelligence Research Centre (AIRC) organizes 6-day training on gaming technology 3D-Unity, free for public enrolment. The workshop objective is to learn coding of C-language and controlling patterns, gain a general knowledge of videogame design, get experience using Unity (a very versatile 3D tool), develop a 3D rocket game, and build and deploy the accomplished game.

Please refer to the links below:

<https://www.ajman.ac.ae/en/engineering/student-development-sessions-events/unity-workshop>

<https://www.ajman.ac.ae/en/news/2022/ajman-university-partners-with-ad-gaming-unity-technologies-to-offer-exciting-video-game-development-courses>

7. AWS Academy Machine Learning Foundations

Machine learning is the scientific study of algorithms and statistical models using inference instead of instructions to perform a task. The AWS academy course is organized for school students interested in pursuing careers in Data Science and Machine Learning.

Please refer to the links below:

<https://www.ajman.ac.ae/upload/files/enginnering/the/3. AcademyMachineLearningFoundations.pdf>

<https://www.ajman.ac.ae/en/engineering/student-development-sessions-events>

8. Behavioral and Social Skills Workshop

The workshop is a type of behavioral therapy aimed at improving social skills in people with mental disorders or developmental disabilities. The workshop targets teachers, therapists, or other professionals to help those with anxiety disorders, mood disorders, personality disorders, and other diagnoses: the teaching methods involved content discussion, role-play, individual rehearsals, and individual and group counseling techniques.

Please refer to the link below:

<https://www.ajman.ac.ae/upload/files/chs/1. Behavioural and Social skills workshop.pdf>

9. Education in the Digital World

College of Humanities and Social Sciences organizes the workshop on “Digital world education” intended to teach the participants the new technology in education, digitalization techniques, etc.

Please refer to the link below:

<https://www.ajman.ac.ae/upload/files/chs/2. Education in Digital world.pdf>

10. Effective Communication workshop

The General Education unit organizes the practical communication workshop to teach the Do’s and Don’ts of formal communication, the best methods of speech, the importance of active listening, etc.

Please refer to the link below:

<https://www.ajman.ac.ae/upload/files/chs/3. Effective Communication Skill.pdf>

C. Training Courses by the Office of Sustainability

Throughout the year 2023, Ajman University is a beacon of knowledge and action, offering comprehensive resources for training courses to equip individuals and communities with the skills and understanding necessary to address this pressing global challenge. Our diverse range of programs caters to a broad audience, from students and educators to professionals and concerned citizens, empowering each participant to become an agent of positive change. Please refer to the link below:

<https://ehs.ajman.ac.ae/en/pages/au-climate-action-learning-program>

AU offers training courses in collaboration with Coursera, the United Nations Climate Change Learning Partnership, and the UN Institute for Training and Research. The courses cover Climate Change, Sustainable Finance, Green and Circular Economy, Gender Equality and Human Rights in Climate Action, Renewable Energy, Preventing E-waste, Food Waste Prevention, Human Health and Climate Change, UN Sustainable Development Goals, and much more.

Some of the offered courses or programs under Sustainability are:

1. Courses under the program on “Climate Change”

Mandatory Course:

- a. Climate Change: From Learning to Action

Optional Courses:

- b. Integrating Climate Risk Information into NAPs
- c. An Introduction to Climate Change and Human Rights
- d. Climate Change, Peace and Security: Understanding Climate-Related Security Risks Through an Integrated Lens
- e. Children and Climate Change
- f. How to Report Emissions under the Convention on Long-range Transboundary Air Pollution
- g. Convention on Long-range Transboundary Air Pollution

2. Courses under the program on “Mitigation Strategies

Explore effective strategies to mitigate climate change by reducing greenhouse gas emissions.”

Mandatory Course:

- a. Introductory e-Course on Climate Change

Optional Courses:

- b. Climate Change International Legal Regime
- c. Gender Equality and Human Rights in Climate Action and Renewable Energy
- d. Green Fiscal Policy
- e. Carbon Taxation
- f. Introduction to Sustainable Finance Taxonomies

3. Courses under the program on “Adaptation Strategies

Explore effective strategies to adapt to the impacts of climate change by enhancing resilience and building sustainable practices.”

Mandatory Courses:

- a. Making the Right Choices - Prioritizing Adaptation

Optional Courses:

- b. Financing Local Adaptation to Climate Change: an Introduction to Performance-Based Climate Resilience Grants
- c. Mastering National Adaptation Plans: from Start to Finish
- d. Building Climate Resilience through Ecosystem-based Adaptation Planning
- e. International Climate Change Negotiations: Leveraging Local Experience in Support of Climate Change Negotiations
- f. Integrating Climate Risk Information into NAPs

4. Courses under the program on “Impact Reduction and Early Warning Systems

Learn about methods to minimize the negative impacts of climate change and develop early warning systems to prepare for and respond to climate-related hazards.”

Mandatory Courses:

- a. Natural Disaster and Climate Change Risk Assessment

Specialization

- b. Natural Disaster Risk in Infrastructure Projects
- c. Qualitative and Quantitative Analysis of Disaster Risk
- d. Decision-Making and Governance of Natural Disaster Risk

5. Courses under the program on “Local Education Programs and Campaigns

Engage in developing and implementing effective education programs and campaigns to raise awareness about climate change and promote sustainable practices within communities.”*Mandatory Courses:*

- a. Emergency Plan & Procedures Workshop
- b. Sustainable Development Goals and ESG in Higher Education

Specialization

- c. Understanding Sustainability - Junior School Groups
- d. Understanding Sustainability - Senior School Groups
- e. Workshop on Sustainable Nudges
- f. SDG 6: Clean Water and Sanitation Workshop

- g. A Healthy Planet, a Healthy You: The Connection Between Sustainability and Healthcare Awareness Session
- h. The Climate Dictionary Workshop

6. Courses under the program on “Sustainable Development

Learn how to contribute to the 17 UN Sustainable Development Goals and how to integrate them into your impact.”

Mandatory Courses:

- a. A Participant Guide of the UN Climate Change Process
- b. Introduction to Sustainable Development in Practice
- c. Advancing Sustainable Development in Practice
- d. The National Implementation of the Paris Agreement
- e. Plastic Waste and the Basel Convention
- f. Indicators for an inclusive green economy: Introductory course
- g. Indicators for an inclusive green economy: Advanced course
- h. Sustainable Consumption and Production in Africa

D. 2023 Educational Workshops as part of Community Engagement

In the year 2023, in collaboration with community authorities, the Office of Community Engagement (OCE) offers a wide range of workshops covering topics such as human and social development, personal finance, women's empowerment, community sustainable indicators, and themes of interest to our students and community alike.

The OCE also endeavours to organize educational and awareness-raising seminars on community service and voluntary work, imparting the values of giving and belongingness to all participants.

Please refer to the links below:

<https://community.ajman.ac.ae/uploads/files/pdfs/community-service-activities-ay-2022-2023.pdf>

<https://community.ajman.ac.ae/uploads/files/Achievement%20file%20-%202023-2024.pdf>

E. Courses for Student Development

1. The Design Project Stages and Challenges Workshop

The Interior Design Department hosted the event as part of the "practice course in interior design". The workshop, titled "The Design Project Stages and Challenges," focused on the various stages of the design process and the challenges that arise during each stage.

Please refer to the link below:

<https://www.ajman.ac.ae/en/cad/news/2023/the-design-project-stages-and-challenges-workshop>

2. Eikon DataStream Training Session for MBA and DBA Students

In the year 2023, MBA and DBA students recently explored Eikon DataStream, gaining valuable insights for their academic pursuits. Please refer to the link below:

<https://www.ajman.ac.ae/en/cba/news/2023/eikon-datastream-training-session-for-mba-and-dba-students>

3. Enthusiastic Response by Students to Training Sessions on Data Analytics in Accounting & Finance

In May 2023, More than 50 students from the Departments of Accounting and Finance have participated in impactful workshops on Data Analytics in Accounting and finance. Please refer to the link below:

<https://www.ajman.ac.ae/en/cba/news/2023/enthusiastic-response-by-students-to-training-sessions-on-data-analytics-in-accounting-finance>

4. AU Partners with BEEAH Education's IEMS Academy to Offer Industry-Leading Sustainability Qualifications

In March 2023, The Institute of Environmental Management and Sustainability Middle East (IEMS Academy), the Professional Certifications and Conformity Assessments arm of BEEAH Education, has signed a comprehensive Memorandum of Understanding with Ajman University. The landmark MoU

marks the beginning of an important collaboration between both entities. IEMS will offer the students and stakeholders of the leading UAE institution an unprecedented opportunity to gain professional qualifications and certifications in the field of sustainability and environmental management. Please refer to the link below:

<https://www.ajman.ac.ae/en/news/2023/ajman-university-partners-with-beeah-educations-iems-academy-to-offer-industry-leading-sustainability-qualifications>

5. AU's College of Engineering & IT Conducts Insightful Workshop on AI and Cybersecurity

Held on March 1, 2023, Ajman University's "AI in Cybersecurity" workshop, hosted by the College of Engineering and Information Technology, focused on the intersection of artificial intelligence and cybersecurity, was organized by the IT club, the workshop featured Mr. Mhd Wail Khachfa, Chief Information Security Officer at the Department of Digital Ajman, as the guest speaker. The event attracted over 75 students and explored how AI is transforming the way cybersecurity threats are detected and mitigated in real-time. Students learned about various AI tools and strategies businesses are using to stay ahead of evolving digital security risks, enhancing their skills and preparing them for future challenges in the tech industry. This initiative supports and promotes digital literacy, skills development, and lifelong learning in an increasingly digital world. Please refer to the link below:

<https://www.ajman.ac.ae/en/news/2023/ajman-universitys-college-of-engineering-it-conducts-insightful-workshop-on-ai-and-cybersecurity>

6. AU Hosts GDSC's Data Science Project Workshop

In the year 2023, During the workshop, students learned about the three foundational pillars of data science—computer science, statistics, and domain knowledge. Students were introduced to the data analysis and machine learning tools used by Data Scientists, such as "Google Colaboratory (Colab)" and "Jupyter Notebook," to give them an understanding of the environment and possibilities available to them while working on the project, in addition to an introduction to Python and R programming languages. Please refer to the link below:

<https://www.ajman.ac.ae/en/news/2023/au-hosts-gdscs-data-science-project-workshop>

7. The College of Mass Communication Organized a Workshop on Modern Trends in the News Industry

In October 2023, the College of Mass Communication organized a workshop titled "Modern Trends in the News Industry". The session, led by Mr. Sinan Al Nuaimi, a broadcaster from Al Dhafra Channel, was attended by faculty, including Dr. Emad Omar and Dr. Mustafa Humaid Al Tai, as well as students. The workshop focused on bridging theoretical knowledge with practical applications in radio and television, fostering interactive learning through student questions and discussions. This initiative enhanced students' critical thinking, media skills, and industry

preparedness, supporting inclusive, quality education and lifelong learning in the rapidly evolving media landscape. The event culminated in a formal honoring of Mr. Al Nuaimi by the faculty.

Please refer to the link below:

<https://www.ajman.ac.ae/en/masscom/news/2023/the-college-of-mass-communication-organizes-a-workshop-on-modern-trends-of-news-industry>

8. AU Partners with Aspire to Launch the Social Leadership Program

The Office of Community Engagement at Ajman University (AU) has partnered with ***Aspire Training Solutions*** to launch the Social Leadership Program for AU students and alumni. Aspire is an entrepreneurial training and consulting firm that delivers transformational solutions using innovative methodologies for the private sector, community-based organizations, and youth. This initiative aims to generate and transfer knowledge related to social leadership by empowering and inspiring a deep and lasting transformation in the lives of AU students and alumni to live, lead, and prosper. Please refer to the link below:

<https://www.ajman.ac.ae/en/news/2022/ajman-university-partners-with-aspire-to-launch-the-social-leadership-program-for-students-and-alumni>

9. Stevens Initiative Grants Funding to Ajman University for Innovative Virtual Exchange Program

The Stevens Initiative announced that Ajman University would be one of its newest grantees to receive funding for virtual exchanges between young people in the United States, the Middle East, and North Africa. Ajman University's "Actualizing Youth Mobility to Lead and Innovate in the 21st Century" is one of four new Stevens Initiative-funded exchanges. Funding has been awarded to select institutions based in the UAE, including Ajman University, for virtual exchanges that will give young people experiential learning opportunities to explore topics impacting their local and global communities. Please refer to the link below:

<https://www.ajman.ac.ae/en/news/2022/stevens-initiative-grants-funding-to-ajman-university-for-innovative-virtual-exchange-program>

Ajman University

Ajman University's AYM: Actualizing Youth Mobility to Lead and Innovate in the 21st Century is a collaborative virtual exchange program that fosters intercultural understanding, creative collaborations, and meaningful communication among students.
