3.3.1 Current collaborations with health institutions

A. Local Collaborations

1. Ajman University Collaborates with Amina Hospital for Medical Check up

In the year 2024, the [Memorandum of Understanding \(MOU\)](#) between Ajman University and Amina Hospital continued to advance affordable healthcare access for the local community. This strategic partnership significantly contributed to the achievement of the United Nations Sustainable Development Goal of ensuring healthy lives and promoting well-being for all.

Through this collaboration, a variety of accessible health services were made available, including discounted PCR tests, reduced consultation fees through medical discount cards, and cost-effective medical check-ups. These initiatives helped to minimize financial barriers to essential healthcare, enabling early diagnosis and supporting ongoing disease prevention efforts.

Additionally, the partnership supported regular on-campus [Medical Check-up](#), awareness events, equipping students and staff with vital information on preventive care and healthy lifestyle choices. These jointly organized initiatives enhanced community engagement and fostered a culture of proactive health management.

Together, these efforts reflect a shared commitment to inclusive and preventive healthcare, reinforcing local health outcomes while aligning with broader global development priorities.

2. Ajman University Deepens Ties with Saudi German Hospital Group in Strategic Partnership Expansion

In the year 2024, the [Memorandum of Understanding \(MOU\)](#) between [Ajman University and Saudi German Hospital](#) . Ajman University's College of Pharmacy and Health Sciences held a key meeting with the representatives of the Saudi German

Hospital group to explore opportunities for expanding collaborative efforts in healthcare education and training. The hospital group, already a partner in training pharmacy students across multiple locations, hosted the discussion to review ongoing initiatives and explore new avenues for experiential learning. Topics included support for clinical training in pharmacy, the introduction of nursing student placements, joint research opportunities, licensing exam preparation, guest lectures, preceptor development, and community engagement focused on health professional education. The meeting concluded with a mutual agreement with Ajman University's College of Pharmacy and Health Sciences holding a strategic meeting with representatives from the Saudi German Hospital Group to explore the

expansion of collaborative initiatives in healthcare education and training. Building on an existing partnership that supports pharmacy student training across multiple locations, the meeting served as a platform to evaluate current programs and identify new opportunities for experiential learning.

Key discussion points included enhanced [Clinical Partnerships](#) for pharmacy students, the introduction of placement opportunities for nursing students, joint research initiatives, licensing exam preparation, guest lectures by industry experts, preceptor development programs, and community outreach focused on health professional education.

The meeting concluded with a mutual agreement to formalize experiential learning opportunities for nursing students and to strengthen collaborative efforts across various academic and clinical training domains. This partnership underscores a shared commitment to advancing healthcare education, fostering clinical excellence, and supporting community well-being. By providing high-quality, hands-on learning experiences, the collaboration aims to enhance the competencies of future healthcare professionals while contributing meaningfully to the broader healthcare ecosystem.

3. Ajman University Partners with Saudi German Hospital for Study Tour Collaboration

In the year 2024, Ajman University continued its collaboration with the Saudi German Hospital and led the [Medicine Across Continents Study Tour](#). The initiative included clinical workshops, engaged with advanced medical simulators, and visited renowned hospitals like Saudi German Hospital, where they gained valuable insights into hospital operations, medical education, and

best practices in patient care. The students participated in a study tour and engaged in a rich educational and cultural experience. Ajman University's College of Medicine, in collaboration with the Office of International Academic Affairs, hosted a comprehensive academic and cultural exchange program for students. The program featured clinical workshops, hands-on training with advanced medical simulators, and educational visits to leading healthcare institutions, including the renowned Saudi German Hospital. These experiences offered participants valuable insights into hospital operations, medical education systems, and best practices in patient care. Through this initiative, Ajman University continued to support the global United Nations Sustainable Development Goals related to quality education, equitable healthcare access, and cross-cultural understanding. Students were immersed in the healthcare landscape of the UAE through academic sessions and practical engagements at cutting-edge medical facilities. A highlight of the tour was a dynamic clinical moulage workshop designed to foster critical thinking, teamwork, and real-world clinical decision-making.

Beyond academic activities, the program also included cultural excursions to key landmarks across the UAE, offering students a deeper appreciation of the region's heritage, educational opportunities and contemporary society. This cultural immersion enriched the participants' global perspectives and strengthened the spirit of international cooperation. Ajman University continues to promote international collaboration and healthcare knowledge exchange, the program played a meaningful role in shaping globally minded, future-ready healthcare professionals.

B. National/Regional Collaborations

1. Ajman University Deepens Ties with Emirates European Hospital

In the year 2024, partnership between Ajman University and Emirates European Hospital in Sharjah, continued to strengthen its collaboration by building on the [Memorandum of Understanding \(MOU\)](#) signed in 2022. This partnership continued to thrive in multifaceted collaboration, reinforcing a strong partnership focused on advancing healthcare education and community well-being.

The collaboration primarily supported internship opportunities for students in health and science disciplines, providing them with practical, hands-on clinical training in a real-world hospital setting. In addition, the MoU offered special discounted rates for medical treatments across all departments of the hospital to members of the community. This ongoing partnership reflects Ajman University ongoing commitment to academic excellence, experiential learning, and accessible healthcare, contributing to the development of skilled healthcare professionals while supporting the health needs of the community.

2. Ajman University and Burjeel Hospital Establish Strategic Partnership

In the year 2024, Ajman University and Burjeel Hospital have established a strategic partnership through a [Memorandum of Understanding \(MOU\)](#) to promote healthcare education, training, and community well-being. This collaboration strengthened ties between academic institutions and healthcare providers, facilitating quality education and skills development for students through hands-on clinical experience. The initiative contributed to strengthening the healthcare workforce by building skills and offering practical training opportunities, ultimately enhancing the quality and accessibility of health services. Ajman University is dedicated and continues to promote the education and healthcare sectors, helping to improve service delivery in communities through a combination of academic learning and real-world experience. The collaboration supported the development of inclusive and effective health systems while advancing educational outcomes and community well-being.

4. Ajman University and Emirates Health Services Promote Community Health through Blood Donation Campaign

In March 2024, Ajman University and Emirates Health Services (EHS) have signed a Memorandum of Understanding (MOU) to enhance healthcare education and foster closer ties between academia and the industry. The MOU also focuses on aligning the curriculum with industry needs to improve student employability and supports national healthcare goals. As part of the healthcare goals, Ajman University, in collaboration with Emirates Health Services, organized a [Blood Donation](#)

Campaign engaging 66 participants, including students, faculty, and staff. The initiative raised awareness about the critical need for regular blood donations and encouraged active community involvement in supporting local healthcare. By contributing to the blood supply for patients in need, the campaign strengthens community health systems, fosters social responsibility, and provides students with practical, experiential learning opportunities in healthcare engagement. This initiative reflects Ajman University's commitment to improving public health, promoting civic participation, and advancing measurable health outcomes.

5. Ajman University and Emirates Health Services Organize National Flu Vaccination Campaign

In the year 2024, Ajman University's Office of Medical Services, in collaboration with **Emirates Health Services (EHS)**, organized the **National Flu Vaccination Campaign** with Emirates Health Services for the AU community. The campaign took place on October 1st for both faculty and staff, and October 2nd for students, with 142 staff and 100 students participating respectively. This initiative demonstrates the Office's commitment to promoting health, preventing illness, and fostering a safe environment by encouraging proactive health measures within the community. Through this collaboration Ajman University reinforced its commitment to social responsibility, supporting public health efforts and promoting a healthier society for all.

C. Global Collaborations

1. Ajman University Promotes Well-being with Thumbay University Hospital (Global)

In the year 2024, Ajman University continued its [Memorandum of Understanding \(MOU\)](#) with Thumbay University Hospital in the UAE and India. In September 2024, Ajman University in collaboration with Thumbay Labs, through its Office of Medical Services, has introduced the [Gold Wellness Package](#) for the community. The Gold Wellness Package is a new health initiative aimed at supporting the well-being of AU faculty, staff, students, and their families. this exclusive package offers comprehensive health screening that includes over 70 health parameters at a highly discounted rate. Additionally, it continued to provide a 35% discount on all other lab tests conducted at Thumbay Labs, located at Gulf Medical University. Ajman University is dedicated and demonstrated its ongoing efforts to promote affordable preventive healthcare ensured good health and well-being for the wider community.

2. Ajman University Partners with the Leader Healthcare Group (Global)

In September 2024, Ajman University continued to collaborate with the Leader Healthcare Group, a Global for the Healthcare Simulation and Clinical Competence Centre (HSCCC). Ajman University students actively participated in [Healthcare Simulation Week 2024](#), a global event celebrated annually by the Society for Simulation in Healthcare (SSH). Under the theme 'Launchpad to Legacy: What's Your Next?', the week-long celebration served as a dynamic platform for students across healthcare disciplines to sharpen their clinical and collaborative skills through immersive simulation-based learning. A wide range of interactive activities and competitions were organized, replicating real-life medical scenarios that enabled students from medicine, nursing, pharmacy, dentistry, and biomedical engineering to apply their academic knowledge in practical, team-based environments. This approach supports interdisciplinary learning while promoting safe, patient-centered care practices. These activities not only fostered collaboration among students but also emphasized the use of emerging technologies such as AI, virtual reality, and machine learning in modern healthcare education.

By bridging theoretical learning with real-world medical challenges, Ajman University continues to cultivate a new generation of healthcare professionals equipped with the critical thinking, technical competence, and collaborative mindset needed to thrive in today's evolving healthcare landscape.

3. ESAAD Card

In the year 2024, Ajman University renewed and expanded its partnership with [ESAAD](#), a Dubai Police initiative, reinforcing its commitment to social well-being and inclusive access to education and healthcare. The updated agreement introduces exclusive educational benefits for ESAAD cardholders for students and staff. These benefits reflect the University's continued effort to promote equitable access to quality education through the [Office of Scholarship and Financial Aid](#). Additionally, ESAAD cardholders continue to enjoy access to global healthcare services through this collaboration, including benefits from renowned medical providers. The partnership supports preventative care, medical treatment, and health education, improving the overall health and resilience of the community. By enhancing affordability, encouraging academic excellence, and promoting health and well-being, this initiative contributes to the advancement of sustainable, inclusive systems that prioritize both education and healthcare equity for a wider population.
