### 4.3.3 Vocational training events (lifelong learning)

#### Ajman University Empowers Future Innovators Through Knowledge-Driven Public Engagement

In March 2024, Ajman University reaffirmed its role as a catalyst for inclusive, high-impact knowledge exchange through a dynamic public event hosted by the College of Dentistry. In collaboration with Zeiss, a global pioneer in scientific innovation, the session spotlighted [Cutting-edge Technological Advancements](#) in dental microscopy, attracting a diverse audience of approximately 100 participants, including students, researchers, and academic professionals. By facilitating expert-led engagement with advanced research tools such as the Stereomicroscope Stemi 508, Ajman University continues to foster a culture of continuous learning, innovation, and academic excellence. This initiative exemplifies Ajman University's dedication to building resilient educational ecosystems and equipping future professionals with the skills and insights needed to advance sustainable health and science practices.

#### Ajman University and Harvard Collaborate on Advanced Workshop in Oral Medicine and Oncology

In February 2024, in a dynamic initiative aimed at expanding lifelong learning and education outreach activities beyond campus, the College of Dentistry at Ajman University, in collaboration with the Harvard School of Dental Medicine, conducted an advanced workshop on [Oral Medicine and Oncology](#). This specialized training was designed to foster inclusive access to quality education and professional development beyond traditional academic settings,

offering current students and alumni enriching pathways for continuous skill enhancement. The workshop emphasized early detection of oral mucosal diseases and potential malignant conditions, advocating for timely intervention and multidisciplinary strategies in oral oncology. It highlighted the integration of oncology principles into dental practice to ensure holistic patient-centered care, promoting sustainable health solutions through global collaboration. In alignment with promoting equitable education and well-being, the event also focused on empowering dental professionals to become educators. By championing health awareness and resilience, these outreach activities support community empowerment through accessible education, reinforcing Ajman University's commitment to impactful, real-world learning and socially responsible healthcare practices.

### **Ajman University Advances Health Innovation and Vocational Training through Sustainable Dental Technology**

In March 2024, Ajman University continued to promote knowledge-sharing and public resources to advanced scientific learning, the College of Dentistry at Ajman University hosted a collaborative event with Zeiss, a global leader in [Cutting Edge Dental Technology](#). The session highlighted the Stereomicroscope Stemi 508, drawing an engaged audience of around 100 participants including senior students, interns, postgraduate researchers, and academic staff. A specialist from Zeiss, provided an in-depth presentation on the device's capabilities and its practical implications in dental research. This initiative reflects a growing commitment to integrating academic learning with real-world technological innovation, empowering future dental professionals with the tools and insights necessary for research-driven practice and sustainable professional development.

### Ajman University Partners with Curaden Academy to Advance Oral Health Education

In November 2024, Ajman University in collaboration with Curaden Academy, hosted a quality [Educational Session](#) for its students, particularly enhancing professional knowledge and skills in specialized fields. The College of Dentistry at Ajman University, in collaboration with Curaden Academy, jointly held a training session focused on

educating students about the prevention of oral diseases. This session, aimed at MSc Pediatric Dentistry students, focused on optimal oral care practices and effective techniques for advising patients on best practices for oral health. By offering opportunities students to learn from industry experts, Ajman University fostered lifelong learning and equipped future dental professionals with the necessary skills and knowledge to provide high-quality care, a key component in improving public health. This initiative not only supported student development but also strengthens the connection between education and health care. Ajman University's remained committed to promoting high health standards and creating a supportive environment for female students to thrive academically and personally.

## Ajman University Hosts Vocational Training Workshop on Parenteral Nutrition

In March 2024, Ajman University successfully conducted a vocational training workshop titled **Pharmacy Nutrition Support, from Theory to Practice (Parenteral Nutrition)**. This high-impact event was organized by Dr. Sanah Hasan and led by expert clinical pharmacist Dr. Rami Diab from Sheikh Khalifa Medical City Ajman (SKMCA). The workshop provided hands-on vocational education for MSc in Clinical Pharmacy

students, reinforcing Ajman University's commitment to bridging academic excellence with real-world healthcare training. This immersive workshop was strategically designed to bridge the gap between theoretical knowledge and clinical practice in the specialized area of parenteral nutrition. By combining interactive learning methods, including real-life case discussions, practical demonstrations, and critical thinking exercises, the session delivered job-ready skills to pharmacy students preparing for careers in clinical pharmacy and hospital settings. Ajman University continues to ensure access to quality technical and vocational education through the workshop that played a key role in empowering future healthcare professionals through non-formal, skill-based learning.

## Ajman University Empowers Youth with Digital Literacy and Creative Thinking through Summer CAAD Camp 2024

In June 2024, Ajman University's College of Architecture, Art, and Design (CAAD) successfully hosted its annual **Summer CAAD Camp**. The camp featuring a diverse mix of workshops, interactive seminars, lectures, and educational field trips led by Ajman University faculty to engaging high school students in a structured, non-formal vocational training. The vocational training focused on several key themes, including sustainability in urban environments, fundamental design principles, and the significant contributions of Arab architects and designers in

shaping the architectural field locally, regionally, and globally. It inspired students to explore diverse career paths, and distinguished itself with an innovative approach, incorporating advanced technologies such as digital software and virtual reality. By equipping participants with job-relevant ICT competencies, creative design skills, and exposure to university-level academic environments, the program empowered youth to make informed academic and career choices.

Through this initiative, Ajman University reinforced its commitment to digital literacy, design thinking, and career readiness, while advancing lifelong learning access. The camp played a key role in fostering

technical and creative skill development, aligning education with national and global workforce needs in architecture, arts, and design.

### **Ajman University Advances Equal Access to Lifelong Learning through Global Masterclass in Group Decision-Making**

Ajman University advanced equal access to quality Education through an international Masterclass on Group Decision-Making hosted by the Office of International Academic Affairs. The event welcomed postgraduate business students from leading global institutions, including Jaipur Manipal University, Jaipuria Institute of Management, KL University, Mulshi Institute, and the New Delhi Institute of Management. Led by Dr. Gyanendra Sisodia, Professor at the College of Business Administration, the session enhanced participants' competencies in collaborative and evidence-based decision-making, promoting cross-cultural academic exchange, experiential learning, and leadership development. By providing open access to high-quality, research-driven instruction and fostering global academic partnerships, Ajman University reinforced its role as a hub for lifelong learning, innovation, and inclusive international education.

## Ajman University Empowers Future Media Professionals Through Vocational Excellence in Mass Communication

In December 2024, Ajman University organized a vibrant atmosphere that celebrated creativity, innovation, and applied learning, students specializing in Radio and Television Production at the College of Mass Communication showcased their graduation projects. The event served as a practical platform for demonstrating the college's commitment to technical and vocational education, hands-on training, and skills-based learning in the field of media and communication. The ceremony was graced by the Dean of the College of Mass Communication and several other distinguished faculty members who play a pivotal role in advancing professional education and industry-oriented training.

The graduating students presented a diverse portfolio of media productions, including six documentaries, three television commercials, and a short fiction film. Each project demonstrated a strong integration of technical proficiency, creative storytelling, and professional production skills, addressing a wide range of socially relevant topics such as the empowerment of Emirati women, entrepreneurial success stories, the Emirati Genome Program, mental health awareness, and psychological support for children. The students were applauded for their innovation, technical excellence, and professionalism, noting that these projects reflect the effectiveness of the college's applied learning approach. Through such initiatives represent an essential component of career-oriented higher education, equipping students with industry-relevant competencies, media production expertise, and the confidence to succeed in the creative economy. Through these graduation projects, Ajman University continues to reaffirm its mission to provide practical, skill-based education that bridges the gap between academic study and professional application, fostering a new generation of competent media practitioners ready to contribute meaningfully to the media and communication sectors.
